Perimeter Fence & Hedging		M	Generally satisfactory but would not exclude animals from the area, in addition, strimmer damage evident at the fence posts, further deterioration could result in wood rot or material and structural failure			Labour cost all work be ordered at the same time			
Vehicle Access Gate		M	Generally satisfactory but recommend excess hinge fixing bolt threads are trimmed back and made safe to reduce potential snagging hazards.						
Single Gate		MH	Gate propped open at time of inspection, allowing unrestricted vehicle access and would not exclude dogs from the area or prevent toddler's leaving the recreation field and entering the adjacent road						
				M	Generally satisfactory but recommend excess hinge fixing bolt threads are trimmed back and made safe to reduce potential snagging hazards.				
General: Grass Impact Surfaces		M	Grass is considered suitable for use where Free Fall height is up to 1.5m, but note that grass must be in a well maintained condition, with at least 150mm of soil beneath it. Grass should remain throughout the year, and not become mud or bare earth, it's impact absorbency is dependant on the roots maintaining an un-compacted soil structure (Ref BS EN 1176-1:2017 UK National Foreword)						
				M	Gate can not be fully opened when vehicle gate is in use.				
General: Tree Health			Recommend a comprehensive survey is carried out on trees within and around the play area by an arboreal specialist to ascertain their health and take appropriate remedial action where required						
General			The provision of litter facilities is recommended.
