

I am proud to present my new Police and Crime Plan for Wiltshire and Swindon 2017 – 2021.

It sets the direction for policing and community safety for the next five years and builds on the achievements of my first term.

As Police and Crime Commissioner my role is to ensure that:

- The people of Wiltshire and Swindon are kept safe
- Wiltshire Police delivers an efficient, effective and trusted service
- The justice system meets the public's needs

My new plan sets out, in clear language, the four priorities for the Force. You will also find infographics showing the typical daily demand for Wiltshire Police services and the continuing demand to keep people safe from a range of threats.

The plan went out to public consultation in January and I received much helpful feedback which influenced the final version.
